EDUCATION

Bachelor of Industrial Design (B.Des)

Shenkar College of Design 2022 — 2026

EXTRA COURSES

Computing Fabrics 2025

Massachusetts Institute of Technology (MIT)
Boston, MA, USA

Information Experience Design 2025

Royal College of Art (RCA)
London, UK

SCHOLARSHIPS

Heseg Foundation Scholar 2022 — 2026

Recipient of the prestigious Heseg Foundation Scholarship for lone soldiers, honoring leadership potential, academic achievement, and community involvement.

CREATIVE SOFTWARE

Adobe Illustrator
Adobe Photoshop
Arduino (Beginner Level)
AI Workflows (Weavy, Vizcom, Krea)
Asana
Canva
Claude Code
Figma
Grasshopper
KeyShot Studio
Microsoft Office Suite (Word, Excel, PowerPoint)
Procreate (Digital Sketching)
Rhinoceros 3D
SolidWorks
3D Printing and Fabrication

LANGUAGES

English
Hebrew
Spanish

PROFILE

Passionate designer and collaborator looking for my next opportunity to contribute and grow in the creative world. Driven by a deep desire to explore, innovate, and push creative boundaries, I aim to create work that is thoughtful, impactful, and meaningful. Native in English and Hebrew | Open to part-time opportunities.

WORK EXPERIENCE

Lead Designer Jul 26 — Present

International Fabric Machines (IFM) | Boston, MA

- Designing a flexible, noninvasive distributed acoustic monitoring system using MIT-developed multimaterial acoustic fibers for dolphin research and conservation at the Dolphin Reef in Eilat, Israel.
- Engineering an embedded electro-mechanical buckle interface linking sleeve and glove functional fiber networks, consolidating power from a single central computer and battery.
- Developing two smart textile monitoring garments for Parkinson's DBS surgerical teams to replace manual intraoperative checks with automated tracking.

Design Contributor for MIT Research Publication Aug 25 — Oct 25

Massachusetts Institute of Technology (MIT) | Boston, MA

- Collaborated with MIT PhD student, Yongyi Zhao, to design a publication-ready figure for an academic research paper.
- Produced and refined design drafts through ongoing feedback and concept development.
- Translated complex research ideas into clear, visually engaging illustrations that communicated key findings effectively.

Project Manager 2024 — Present

International Fabric Machines (IFM) | Boston, MA

- Ensured timely project delivery by managing schedules, milestones, and resources within established timelines
- Coordinated between team members using Asana, streamlining task management, progress tracking, and cross-team communication
- Developed and delivered presentations to communicate progress, achievements, and next steps, providing leadership with transparent weekly updates throughout all project phases.

Light Infantry Soldier, Staff Sergeant | Lone Soldier 2016 — 2019

Israeli Defense Forces (IDF) | Israel

- Served as a lone soldier within a light infantry combat team, specializing as a sharpshooter and drone operator.
- Operated effectively in high-pressure environments, maintaining composure and clear decision-making during complex and unpredictable situations
- Held responsibility for the maintenance, calibration, and operational safety of advanced equipment, including drones, optics, and weapon systems
- Guided and supported peers through active-duty responsibilities, fostering leadership qualities, resilience, adaptability, and collaboration under demanding conditions
- Cultivated a mindset of discipline, reliability, problem-solving, and teamwork

PERSONAL SKILLS

Adaptability | Problem-Solving | Eager Learner | Dedication | Interpersonal Skills
Leadership | Passion | Creativity | Efficiency | Resourcefulness
